SUMMARY

Information Technology student with a curious mindset and a strong willingness to learn and adapt. Seeking opportunities to work on real-world challenges, collaborate with others, and contribute to an organization while building a meaningful career in technology.

WORK EXPERIENCE

Data Analyst Intern

TechnicalHub, Aditya College of Engineering and Technology

- Analyzed and cleaned datasets to identify meaningful patterns, trends, and insights for data-driven decision-making.
- Created interactive dashboards and visual reports to present key findings in a clear and understandable manner.
- Worked with data analysis tools and techniques to transform raw data into actionable business insights.

TECHNICAL SKILLS

Web Technologies

HTML, CSS, Bootstrap, JavaScript, ReactJS

Database

SQL

Core Subjects

Operating Systems, Data Structures and Algorithms

Programming Languages

C, C++, Python, Java

Data Analytics

Excel, Power BI, Snowflake, Dashboard Development, Data Analysis

PROJECTS

EVENT AURA

Event Aura – Click, Register, Certify, Celebrate is an automated event management system that simplifies event registration, participant management, reminders, and certificate generation using SharePoint and Power Automate. Power BI provides dashboards and analytics to track event registrations and participation, making event management faster, organized, and efficient.
